International Journal of Fracture

CONTENTS OF VOLUME 105 (2000)

Vol. 105, No. 1, 2000

Analysis of singular regions in bonded joints	F. ERNESTO PENADO	1–25
Crack growth analysis of plates loaded by bending and tension using dual boundary element method	T. DIRGANTARA and M.H. ALIABADI	27–47
A penny-shaped crack in piezoelectrics: resolved	W.Q. CHEN, T. SHIOYA and H.J. DING	49–56
Debonding of the interface as 'crack arrestor'	JIA LI	57–79
Determination of energy release rate and mode mix in three-dimensional layered structures using plate theory	BARRY D. DAVIDSON, LIJIE YU and HURANG HU	81–104

Vol. 105, No. 2, 2000

A practical testing approach to determine mode II fracture energy G_{IIF} for concrete	HANS W. REINHARDT and SHILANG XU	107–125
Dynamic SIF of interface crack between two dissimilar viscoelastic bodies under impact loading	PEI-JUN WEI, S.Y. ZHANG, YONG-LI WU and ROBERT K.Y. LI	127–136
Boundary integral equations for notch problems in an anisotropic half-space	C.K. CHAO and C.C. HSIAO	137–159
Three-dimensional numerical simulation of the Kalthoff experiment	R.C. BATRA and M.V.S. RAVINSANKAR	161–186
Constraint effects on plastic crack-tip fields for plane strain mode-I, II and III cracks in non-hardening materials	Y.J. CHAO and X.K. ZHU	187–207

Vol. 105, No. 3, 2000

Analysing the onset of multiple site damage at mechanical joints	G.S. WANG	209–241
Exact and variational theorems for fracture mechanics of composites with residual stresses, traction-loaded cracks, and imperfect interfaces	JOHN A. NAIRN	243–271
An anistropic Gurson type model to represent the ductile rupture of hydrided Zircaloy-4 sheets	M. GRANGE, J. BESSON and E. ANDRIEU	273–293
On dual-parameter fracture criterion of welded joints	YAOWU SHIH, SIYING SUN and MIN ZHANG	295–309

Vol. 105, No. 4, 2000

Correlations among dynamic stress intensity factor, crack velocity and acceleration in brittle fracture	K. ARAKAWA, T. MADA and T. TAKAHASHI	311–320
Microcrack nucleation and growth in elastic lamellar solids	J.J.M. ARATA, A. NEEDLEMAN K.S. KUMAR and W.A. CURTIN	321–342
Evaluation of energy release rate-based approaches for predicting delamination growth in laminated composites	DAVID D. DAVISON, SIMON J. GHARIBIAN and LIJIE YU	343–365
Effect of crack shape, inclination angle, and friction coefficient in crack surface contact problems	NAO-AKI NODA, MAKATO YAGISHITA and TOSHIAKI KIHARA	367–389
Prediction of ductile fracture in axisymmetric tension by void coalescence	A.R. RAGAB	391–409
Author index		411
Volume contents		413–414
